"A nation that continues year after year to spend more money on military defense than on programs of social uplift is approaching spiritual death. Our only hope today lies in our ability to recapture the revolutionary spirit and go out into a sometimes hostile world declaring eternal hostility to poverty, racism and militarisms ... We must move past indecision to action. We must find new ways to speak for peace and justice throughout the world. If we do not act, we shall surely be dragged down the long dark and shameful corridors of time reserved for those who possess power without compassion, might without morality, and strength without sight. Now let us rededicate ourselves to the long and bitter -- but beautiful -- struggle for a new world. This is the calling of the sons and daughters of God."

~Martin Luther King, Jr

Talk to yourself like you would to someone you love
~Brené Brown, Author

**Staying vulnerable is a risk we have
take if we want to experience connection**
~Brené Brown, Author

The modern human's sense of separateness is a delusion – “This delusion is a kind of prison for us, restricting us to our personal desires and to affection for a few persons nearest to us. Our task must be to free ourselves from this prison by widening our circle of compassion to embrace all living creatures and the whole of Nature in its beauty.”
~Albert Einstein

**All defense is just a defense, a defending against
the parts of ourselves we have yet to embrace
& integrate.**

~Received from Spirit during meditation

Bless others rather than condemn them.
Even if only you bless them on their
personal journey.

**When systems start to unravel, we have a
choice. We can struggle to fix the current
system OR we can create new alternatives.
When enough people 'walk out' of the old
systems - and the beliefs that hold it in
place - there is a shift."**

~Deborah Frieze co-author of *Walk Out, Walk On: A Learning
Journey into Communities Daring to Live in the Future Now*

The most remarkable feature of this historical moment on Earth is not that we are on the way to destroying the world – we've actually been on the way for quite a while. It's that we are beginning to wake up, as from a millennia-long sleep, to a whole new relationship to our world, to ourselves and to each other.

~ Joanna Macy, Author and Buddhist scholar
